Current Responsibility

Jacob Anderson is an actuarial analyst with Milliman's Health Practice. He is located in Salt Lake City, Utah, and joined the firm in 2021.

Professional Work Experience

Jacob has a proven track record of identifying key challenges in health care and developing innovative solutions. He is a creative problem solver with experience in many areas of the health insurance industry, including commercial health insurance, Medicare Advantage pricing and strategic support, alternative payment models and risk-sharing arrangements, and employer benefit support. He currently supports client engagements related to the following:

- ACA pricing, filing, and risk adjustment
- Medicare Advantage bid development
- Data analysis and financial projections
- Employer stop-loss reinsurance
- ACO performance review and support
- Post-employment benefits valuation

Education

BS, Actuarial Science, Brigham Young University
