Current Responsibility

Tyler Armstrong is an actuary with the Tampa office of Milliman. He joined the firm in 2017.

Professional Work Experience

Tyler's primary areas of concentration are the Life, Long-Term Care, and Hybrid insurance markets. He also has experience in supplemental products such as Short-Term Care and Medicare Supplement. Within these areas, he has experience with pricing, product development, valuation, merger & acquisition, and regulatory compliance.

Tyler has worked with a variety of clients in entering the Hybrid and Short-Term Care markets. This includes assisting with product design, setting rates, and developing financial information. He also assists with the management and valuation of existing Hybrid product lines of business.

Tyler provides clients with support on their life business including cash-flow testing, valuation, and financial reporting. He also helps clients manage their long-term care business including valuation, experience studies, and rate increases.

Tyler assists clients with developing and managing their valuation models for Medicare Supplement insurance.
