Current Responsibility

Greyson Britt is an actuarial analyst with Milliman's Health Practice. He is located in Houston, Texas, and joined the firm in 2022.

Professional Work Experience

Much of Greyson's work at Milliman has been focused on pricing model development, data visualization, and Medicare Advantage pricing. One of Greyson's main focuses has been the development of a stop-loss rating model API, developed in Python. He also has experience creating insightful visualizations of claims data using PowerBI, specifically for Medicare Advantage plans and Texas Medicaid MCOs.

Education

BA, Economics, Minor Business, Trinity University
