Current Responsibility

John is an actuary with the San Francisco office of Milliman. He joined the firm in 1986.

Professional Work Experience

John has many years of experience in retirement plan administration and providing actuarial services for defined benefit plans. This experience includes performing actuarial valuations for plan funding and ASC 715 pension accounting, plan compliance, and benefit calculations. He also has extensive experience with plan terminations, including the determination and settlement of benefit liabilities and the accompanying administrative requirements.

Professional Designations

- Associate, Society of Actuaries
- Member, American Academy of Actuaries

Education

BA, Mathematics, University of California, Berkeley
