Current Responsibility

Jordan Hull is a consulting actuary with Milliman's Health Practice. He is located in Pierce City, Missouri, and joined the firm in 2011.

Professional Work Experience

Jordan's areas of expertise are managed healthcare and health insurance issues for payers and providers. His experience includes work for Medicaid, commercial, and Medicare clients. He has worked extensively in the projection of financial operations for health insurance risk-bearers, including private health plans, healthcare providers, and self-funded employers.

Jordan has advised clients on the pricing and design of insurance programs, value-based reimbursement, reserving, claims analysis, financial forecasting, and financial reporting. Clients served include health plans, hospitals and physician groups, employers, and other organizations.

For the last several years, Jordan has worked with numerous Medicare Advantage (MA) plan sponsors on the plan design and pricing of their MA bids. He has also worked with multiple clients on CMS bid and financial audits, as well as financial projections for start-up plans, and plans considering expansions to new service areas.

Education

B.S., Mathematics, Brigham Young University
