

# KENJIRO ITO

FIAJ

Principal and Senior Consultant

kenjiro.ito@milliman.com

+81-3-5211-7057

## Current Responsibility

Kenjiro Ito joined Milliman in April 2013. He supports life insurance companies in risk management, modeling, and financial reporting.

His recent assignments include review of market consistent embedded values (MCEV), modeling with MG-ALFA, M&A, USGAAP reporting, risk management, product development, and a range of basic research projects.

## Professional Work Experience

Prior to joining Milliman in April 2006, he worked for ING Life Insurance Japan, where he supported statutory account closing, IFRS account closing, and actuarial system development in the actuarial department. In the insurance risk management department, he supported ALM activities by monitoring tasks, performing economic capital valuations, developing economic value-based balance sheets, and performing various reconciliation analyses.

## Professional Designations

Fellow, Institute of Actuaries of Japan
