Current Responsibility

John Klodnicki is a consulting actuary with the Philadelphia office of Milliman. He joined the firm in 2014.

Professional Work Experience

John has experience in performing both rate and reserve analyses for insurance companies, global reinsurers, joint underwriting associations, state regulators, and various other corporations. He performs analyses for many lines of insurance, including workers' compensation, medical professional liability, general liability, commercial automobile, commercial property, homeowners, and pet health.

John is the lead analyst for several medical malpractice self-insurance programs, risk retention groups, and captive companies. He develops rate and product filings for clients that have been approved in all 50 U.S. states and the District of Columbia.
