Main +1 860 687 0100 | Office +1 860 687 0175

Current Responsibility

Javier Miranda is an actuarial analyst with the Healthcare Practice in Milliman's Hartford office. He joined the firm in 2022.

Professional Work Experience

Javier is a seat holder with the Chronic Conditions Warehouse, a national research database that houses 100% Research Identifiable Files for Medicare and Medicaid data. Through this resource he has worked on several data-focused projects for a diverse set of use cases. He assists with a variety of projects for both public and private sectors, including Medicare plan sponsors and dental insurers. His experience includes participating in Medicare Part D strategy and supporting Milliman's Dental Actuarial Analytics PPO Network Study.

Professional Designations

Javier is currently pursuing the actuarial designation through the Society of Actuaries.
