Current Responsibility

Lee Truman is a senior actuary with the Seattle Health Practice. He has more than two decades of actuarial, analytics and operations experience in both the health insurance and provider spaces. Lee joined Milliman in 2023.

Professional Work Experience

Before joining Milliman, Lee worked at health insurance companies such as Anthem and Humana, as well as providers such as Ascension and OptumCare.

Some of his experience includes:

- Provider payment model analytics, including value-based programs and global risk
- Payer-provider contract analysis and benchmarking, network development consulting
- Medicare Risk Adjustment analytics and operations
- More than seven years working in Medicare Advantage, including Part D and MA pricing
- As a certifying actuary where he led development of Part C Bids
- Commercial group pricing for small and large employer segments
- Data mining and analysis

Professional Designations

- Associate, Society of Actuaries
- Member, American Academy of Actuaries

Education

BS, Actuarial Science; Minor, Computer Science - Bellarmine University
